

AMENDMENTS TO THE CLAIMS:

The following listing of claims will replace all prior versions, and listings, of claims in the application:

1-11. (Canceled)

12. (New) Shelving to hold pizza cartons, comprising a single body including a plurality of adjacent carton stacking zones, the single body including side and rear walls providing an enclosure which is open at a frontal zone, a bottom wall and a cover, the frontal zone having L-shaped frontal profiling elements and T-shaped profiling elements which contain cartons in the stacking zones, the L-shaped and T-shaped profiling elements each having a lower part which is cut away to create an extraction space for a lowermost carton from a stack of cartons in the enclosure element, while upper cartons stacked thereon move down at each removal of the lowermost carton and remain neatly stacked.

13. (New) Shelving according to claim 12, wherein the shelving is comprised of a plurality of stacking zones placed at least one of:

- a) near one another, and
- b) superposed on one another.

14. (New) Shelving according to claim 12, wherein the shelving is an ensemble comprised of a plurality of stacking zones placed at least one of:

- a) near one another, and
- b) superposed on one another.

15. (New) Shelving according to claim 12, wherein the frontal L-shaped profiling elements further include recesses in a central zone thereof for the extraction of the cartons from a center of a shelf of considerable height, in addition to the cut away lower portions.

16. (New) Shelving according to claim 12, wherein the frontal T-shaped profiling elements further include recesses in a central zone thereof for the extraction of the cartons from a center of a shelf of considerable height, in addition to the cut away lower portions.

17. (New) Shelving according to claim 16, further comprising a fixed partition placed at a position lower than the recesses in the central zone.

18. (New) Shelving according to claim 16, further comprising a removable partition placed at a position lower than the recesses in the central zone.

19. (New) Shelving according to claim 12, further comprising a cupboard below the carton stacking zones for the containment of packs of flat punched cartons, useful for the preparation of the cartons by a user.

20. (New) Shelving according to claim 12, further comprising a table for preparing the cartons and for introducing pizza in the cartons.

21. (New) Shelving according to claim 12, further comprising fixed feet secured at the bottom wall for resting on a surface to support the shelving.

22. (New) Shelving according to claim 12, further comprising revolving casters secured at the bottom wall for resting on a surface to support the shelving in a movable manner.

23. (New) Shelving according to claim 12, wherein the walls and cover of the shelves are made from a material selected from the group consisting of metal, wood and plastic.

24. (New) Shelving according to claim 12, further comprising a front protection wall which is transparent.

25. (New) Shelving according to claim 12, wherein at least one of the walls and the cover is transparent.

AMENDMENTS TO THE ABSTRACT:

Please amend the Abstract beginning at page 7, line 1, with the following new Abstract:

~~Title: "Shelving to hold pizza cartons"~~

ABSTRACT OF THE DISCLOSURE

Shelving to hold pizza cartons which is made up of various elements (A), for holding of the cartons (8), set alongside each other, or of a single element (B), containing a multiple ~~stecking~~ stacking zone, where these elements present on all sides, apart from the frontal zone, on the bottom and on the cover, protection walls (1,2,3,4) and carton (8) containment, while the frontal zone presents L-shaped profilings (6) and/or T-shaped profilings (12) for cartons (8) containment, where the profiles (6, 12) ~~show~~ include cuts (7) in the lower part and/or recesses (17) in the central zone, useful for the extraction of the cartons from ~~hellow below~~ and/or from the centre center of the shelf. The shelving also includes ~~eventually presents~~ a cupboard (27) for the containment of the packs of flat punched cartons useful for the preparation of the cartons by the user and presents a suitable table for preparing the cartons and for introducing the pizza in the cartons (8).

**AMENDMENTS TO THE DRAWINGS:**

The attached three sheets of drawings include changes to Figs. 1 and 3.

Specifically, in the sheet including Figs. 1-4, which replaces the original sheet including Figs. 1-4, the section line X-X in Fig. 1 has been changed to section line 2-2, and the section line Y-Y in Fig. 3 has been changed to section line 4-4.
